Dear Federal Communications Commission,

I listen to K-Love daily at home and in my automobile. I have supported K-Love for five years. I faithfully send my check off to program one hour of programing each month. The radio personalities are part of my life and have been for five years.

If K-Love were displaced by an LPFM broadcaster I would not have a choice of listening to music that I like by artists that I have come know. K-Love has notified me as to where concerts are being performed and I have seen many concerts as a result of K-Love Radio.

I believe K-Love is of interest to the public in general. Many parents are looking for a radio station the whole family can listen to. Also the programing doesn't have an advertisement after every song. I listen to the radio late at night and hear that some public servants have it playing on their radios.

Thank you for considering this letter for review.

Sincerely,

Sandy Denley
